TAKES YOU  
TO THE HEART OF NATURE

# A JOURNEY INTO THE HEART OF NATURE

Turkey is a paradise for those who love to travel and for those who enjoy learning while travelling. Turkey still maintains a largely untouched nature and magnificent reminders of cultures dating back tens of thousands of years. All you need to do to experience this glorious land is to get off the main road. As Equinox Travel we have been organizing nature tours and hiking tours for the past 20 years and we know exactly where to go.

TAKES YOU  
TO THE HEART OF  
HISTORY

# ARCHAEOLOGICAL TOURS TO DISCOVER THE HISTORY

Equinox Travel was founded in 1996 by Ümit Işın, an archaeologist, a professional tour guide and a passionate lover of the mountainous historical territory of ancient Lycia and Pisidia. Equinox Travel has always maintained its quality in knowledgeable and professional guides to show its guests the most interesting aspects of the outstanding history of our country.

TAKES YOU OFF THE BEATEN TRACK

# OFF-ROAD TRIPS

The Taurus Mountain Range lying along the southern coastline of Turkey is one of the most breathtaking areas in the world offering endless adventure resources between its towering peaks to deep gorges, from coastal trails to endemic forests in the high altitudes.

The Black Sea Mountains on the other hand, offer tough off-roads with cool summers, and the thick forests keep the roads muddy even in summer; typical for the north coast. Equinox Travel, providing successful travel services for the guests from all over the world, mostly from the U.S, opened the mysterious gates of the Mediterranean, the Taurus Mountains, Cappadocia and the Black Sea for those who are seeking to get the taste of the country-side through adventure programs led by a staff of archaeologists and specialist guides with a strong academic background.

As strong believers in eco-tourism, we do not use our off-road vehicles to feel strong and adventurous, instead we use these vehicles to reach certain regions and get into the depths of the beautiful nature that surrounds us. We take advantage of technology to see what our planet really looked like before cities took over the nature. This opportunity has been an eye-opener for hundreds of people who have travelled with us on our off-road trips.

SAILS YOU  
OUT TO THE  
OPEN SEAS

# CRUISING THE TURQUOISE COAST

With its unmatched natural beauty and fascinating ancient ruins, Turkey's Aegean & Mediterranean coast has much to offer. The turquoise waters provide a beautiful contrast with the green pine trees and mountains which sweep right down to the coast. The villages and towns scattered along the coast are inhabited by the most hospitable people.

Equinox Travel offers guided tours on gulets - wooden-hulled boats, traditionally built along the coast of Turkey, which have evolved into motor/sail yachts. These luxurious boats are perhaps the best means of travelling the Mediterranean coast, enjoying the sea and the land at the same time.

Carefully planned itineraries allow guests to go ashore and walk among the ruins of ancient settlements. Experienced tour leaders and crew members make every effort to help the guests enjoy their vacation.

Sailing aboard a gulet allows the guest to fully appreciate the many enchanting small bays and coves that are almost impossible to get to otherwise.
